¡¡BUEN CAMINO!!

At **Viaxes Zonda**, we specialize in organizing the various Camino routes to Santiago, handling all the necessary arrangements so that pilgrims can focus solely on enjoying the experience. We offer a network of accommodations along each stage, carefully selected by Viaxes Zonda to ensure that pilgrims can enjoy their journey without worrying about where to stay. Additionally, we provide luggage transport for a more comfortable experience, offer assistance throughout each stage, and, upon arrival at each destination, pilgrims can enjoy a pre-arranged regional meal tailored to their preferences, if desired. All services are also available for cyclists.

Upon arrival in Santiago, we provide the opportunity to attend the Pilgrim's Mass at the Cathedral, reserve the magical Botafumeiro incense ceremony, and offer guided sightseeing tours with an expert guide. We cover all possible Camino routes across the country, with options to complete full stages or adapt them based on client preferences.

Below are the five most popular routes.

The **French Way**, connecting Saint Jean de Pied de Port to Santiago, is the most important and popular route of the Camino de Santiago pilgrimage. It consists of 37 stages, covering a total of 940 km. This route has the deepest historical roots of the Camino de Santiago. It begins in France and crosses the Iberian Peninsula from east to west, entering Galicia via the legendary ascent to O Cebreiro. It is the quintessential Camino route, traditionally traveled by pilgrims from all over Europe

The **Northern Way** is as ancient as the French Way. It spans 815 km over 32 stages. Starting in Irún, pilgrims will cross the Asturian-Galician coast, facing challenges such as weather conditions and uneven terrain along the way, entering Galician soil in Ribadeo.

The **Primitive Way** is the oldest Camino de Santiago route, though its distance is much shorter than other routes. Starting in Oviedo and passing through towns like A Fonsagrada, it is now a route of great beauty and challenging terrain, with fewer crowds, following in the footsteps of the first pilgrim. It consists of 13 stages, totaling 321 km.

The **Portuguese Way**, starting in Lisbon, crosses Portugal from south to north, crossing the Miño River to enter Galicia through Tui, reaching Santiago after 25 stages and 620 km.

Finally, we come to one of the most popular routes: the **English Way**. This path is less crowded, well-marked, but with somewhat fewer services and accommodations compared to other routes. The English Way has two variations: one starting in A Coruña with 6 stages and 121 km, and another from the town of Ferrol, adding an additional stage of 33 km.
